

20 years Hippotherapy at the SKH of Rodewisch

Sächsisches Krankenhaus
Rodewisch

Beginnings, impacts and much for the eyes

Sächsisches Krankenhaus Rodewisch

history of human beings

beginnings

not many riding horses in GDR

Fohlenhof Schöniger- my place therapy start 18.01.1996

horse Good Max- today 24 years
here only 4 years old

the old Fohlenhof Schöniger 1998

Fohlenhof Schöniger facts

- 65 horses
- three master class
A and B
- International success
class S
- Vice European champion
versatility
- talent base
- Graf v. Lehndorf Plakette
bronze and silver

our areas for the horses

our horses

the herds

cross over area

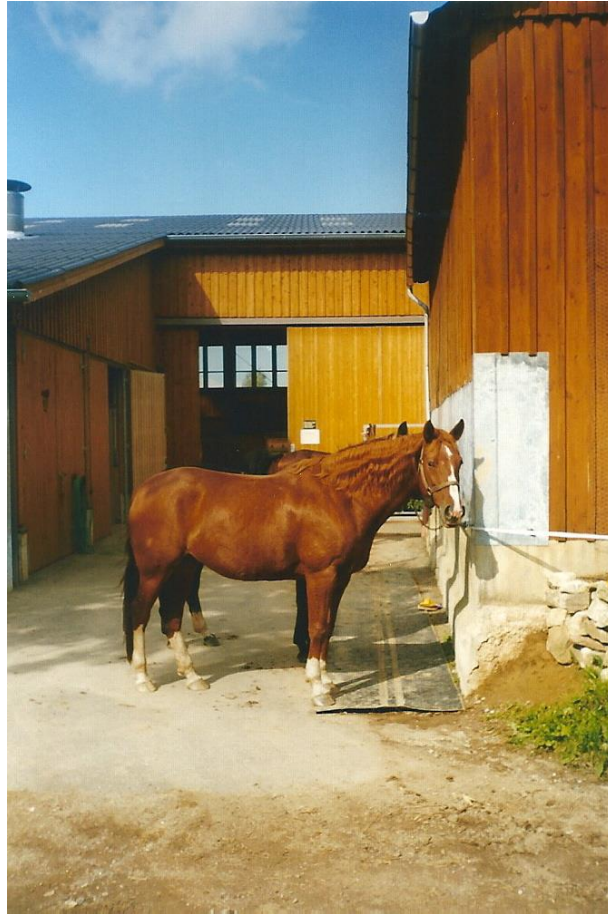

relaxing

DKThR Münster 2009

first Therapy- Horse Perilla

my colleagues Ms.Glaß and Ms.Wolf

first therapy steps

MS, ICP, Parkinson...

desensitization of the other kind

communication

Good Max, Poesie, Rabella, Raffinesse

psychiatry station for children and youngsters

too...

children work

the youngest

to pursue a goal or have a plan

horses loves order

psychiary work and resources

back into the life

the break in 2012

teamwork

visit from a therapy horse in child care centre

masters and trainers

free work with the therapy horses

together or not, stay reflected

Gerotopsychiatry- project

we cannot NOT communicate

free interaction and answer of the horse

better understanding

horses goes never beyond the limits
of the patient...horse: “trust me“

herd sociality

feel it

snuffle me

cooperative sweet idleness

total relaxation

carry and bear a lot and still keep friendly

a lot !!!

swing with me

promote our emotional ability

horses are able to concentrate on many things

nonverbal communication

reflection

provoke a dynamic process

harmonic with a horse

the brain need mindlessness

appropriateness

empathy and understanding

appropriateness makes you beautiful

Summary: soul is love and future

hope for touch your soul

Thanks a lot
